Committee Recommendation / Recommendation to Committee

Council, while acknowledging the successful outcomes and practice with respect to local innovation within the City, requests the CEO, Mayor and Councillor Smyth investigate regional opportunities for Smart Cities by;

- 1. presenting the concept of a Smart Cities focus or group to the WESROC local governments, the Town of Cambridge, the City of Perth, the City of Fremantle, the City of Stirling and the City of Vincent, for discussion; and**
- 2. report their findings back to Council.**

Executive Summary

This report considers appropriate Council and community representation for Smart City matters including options of a formal committee, advisory group or other mechanisms, and proposed Terms of Reference.

The City has a strong history and ongoing practice of successful innovation at a local level. With the likelihood that a Smart Cities group has the potential to be most successful in attracting funding through a regional focus, it is recommended that this concept be presented to the neighbouring local governments to ascertain their interest.

Discussion/Overview**Key Relevant Previous Council Decisions:**

Special Meeting of Council – 5 November 2019

“Council instructs the Chief Executive Officer to provide a report to Council in December 2019 which considers appropriate Council and community representation for Smart City matters including options of a formal committee, advisory group or other mechanisms, and proposed Terms of Reference.”

History of Smart Cities

“Smart Cities” is a term that has been used since the 1990s. It is based on the concept that technological solutions can improve and will continue to improve lives and Cities.

Federal Government Smart Cities Plan

Smart Cities has been picked up by the Federal Government in it's the Smart Cities Plan. This plan has three (3) pillars – Smart Investment, Smart Policy and Smart Technology. It appears that Smart Cities has broadened as a concept to emphasize that well-considered strategic thinking is needed and should be applied to investment and policy as well as to technology. This then integrates finance, strategy and solutions.

“We will become smarter investors in our cities’ infrastructure”

“We will prioritise projects that meet broader economic and city objectives such as accessibility, jobs, affordable housing and healthy environments. We will treat infrastructure funding as a long-term investment not a grant and get involved early to ensure projects create opportunities for urban renewal and raise private capital. By drawing on innovative financing approaches—including value capture—we will leverage our balance sheet and deliver more essential infrastructure sooner.”

“We will coordinate and drive smarter city policy”

“We will work across all levels of government to develop City Deals that unlock public and private investment in key economic centres. By incentivising reforms, we will generate additional benefits for the economy making cities better places to live in and do business.”

“We will collect and analyse data about the performance of our cities, so we can measure our policies’ success and respond to new needs.”

“We will drive the take up of smart technology, to improve the sustainability of our cities and drive innovation”

“We will embrace new technology with the potential to revolutionise how cities are planned, function, and how our economy grows. Disruptive new technology in transport, communications and energy efficiency are becoming a reality—we will position our cities to take full advantage. We will leverage real time open data driven solutions and support investment in sectors commercialising new innovations to grow Australian's economy.”

The Federal Government has a City Deals funding program that align with Smart Cities. “City Deals are the key mechanism for delivering on the Smart Cities Plan. They are a genuine partnership between the three levels of government and the community to work towards a shared vision for productive and liveable cities.”

City Deals targets large multi-agency projects which are of significance to a whole metropolitan area or a large part of one.

Strategic Alignment

The Strategic Community Plan (SCP) does not use the phrase “Smart City” or the word “innovation” and this is not a formal priority of this Plan.

The Strategic Community Plan does refer to innovative leadership, under the Values heading of Great Governance and Civic Leadership.

A value of the City is that it is “Great for Business. Our City has a strong economic base with renowned Centres of Excellence and is attractive to entrepreneurs and start-ups.” A focus on innovation and Smart Cities may be an ally to this value, although it is noted that no specific actions or priorities are assigned to this value in the Strategic Community Plan.

A priority of the Strategic Community Plan is “working with neighbouring Councils to achieve the best outcomes for the western suburbs as a whole”.

Options to Deliver Smart City Innovation

Option 1 - Current Approach

The current approach works within the existing organisation structure. It relies on information received by the organisation through formal and informal industry affiliations and various government sources of information. Elected members are part of this information gathering through their attendance at conferences and industry contacts.

Individual proposals are considered by the organisation and by Council then implemented as per approved budgets.

The organisation, including the elected members, has formal email network updates for when grant funding is available. As opportunities come through, they are assessed against the pipeline of future work at the City, or as a new community benefit solution.

This approach has delivered a number of innovative projects and continues to do so. Examples include, smart irrigations, asset management with predictive capabilities, smart street lighting, advanced cyber security, Currently the City is assessing smart engagement tools through mobile phone data acquisition and 3D planning assessment software.

If the aim is to provide the organisation with ideas for implementation then a group or committee is not warranted, as the City already follows up on as many ideas as it has the need for and the capacity to deliver.

The current approach will still have a place alongside any other group / committee, but would ideally sit as the local approach, alongside option 4 – the regional approach.

Pros	Cons
No extra cost.	Does not actively attract and use City of Nedlands talent.
The going it alone approach is more agile and less commitment to outside partners.	Makes it very difficult to attract funding at a City Deals scale.
At a City of Nedlands level this approach has been successful historically.	
Provides very good transparency and accountability by using the Council reporting and decision-making process.	

Option 2 – Internal Committee

This option instigates a formal committee with or without delegations to advance the Smart Cities concept.

The purpose of a committee under the Local Government Act 1995 is to “assist the Council and to exercise the powers and discharge the duties of the local government that can be delegated to committees”.

The operative idea is here is to assign some of Council’s work to the committee. Committees are primarily to take some of the workload of Council, making for efficient decision-making in the discharge of its duties. Delegation of duties to a committee is a key mechanism for achieving this.

The committee structure provides for the same level of transparency and accountability as exists for Council itself.

Pros	Cons
If Council wishes Smart Cities to be a priority, then a committee structure provides this prominence.	Cost is in the order of \$7,000 per meeting including report preparation and meeting time. This doesn’t include the value of the Committee members’ time.
Targets local Smart Cities initiatives.	With delegation this committee will need additional administrative support to implement any actions that it has budget for. It is assumed that Council would not intend to provide additional resourcing to carry out any projects of the committee and that they would be programmed within existing resources.
Can add significant value by including community expertise from within the City.	Cannot easily target regional Smart Cities initiatives or access federal funding.
Community may feel they are more involved/engaged in the process.	Significantly slows down progress of action through a minimum seven (7)

	week committee to Council reporting and approval cycle. Delegation would assist this only for projects less than \$150,000 and not subject to tender approval provisions, so delegation may have limited value in creating efficiency.
Provides very good transparency and accountability	

Option 3 – Internal Advisory Group

The internal Advisory Group is like a committee; however, it cannot have any delegation and must report any proposals through to Council for approval.

This is a way of elevating the Smart Cities into prominence for the City of Nedlands.

Pros	Cons
If Council wishes Smart Cities to be a priority, then an Advisory Group structure provides this prominence.	Cost is in the order of \$7,000 per meeting including report preparation and meeting time. This doesn't include the value of the Advisory Group members' time.
Targets local Smart Cities initiatives.	No delegation can be made to an Advisory Group and all ideas must come back to Council for approval.
Community may feel they are more involved/engaged in the process.	Less agile and slower than the current approach.
Provides good transparency and accountability.	

Option 4 – Regional Smart Cities Group

Under this option the City would team up with neighbouring local governments, potentially under the WESROC banner to explore and develop Smart Cities options. A similar group, the WESROC environmental committee, meets to deliver regional wide environmental initiative.

A regional group could include community expertise from within the participating local governments.

Pros	Cons
If Council wishes Smart Cities to be a priority, then a Regional Advisory Group structure provides this prominence.	Cost is in the order of \$7,000 per meeting including report preparation and meeting time. This doesn't include the value of the Advisory Group members' time.
Targets large regional Smart Cities initiatives with access to significant funding.	No delegation can be made to an Advisory Group and all ideas must come back to Council for approval.

Community may feel they are more involved/engaged in the process.	Less agile and slower than the current approach, and slower than a local group or committee.
Provides good transparency and accountability.	A City Deal will be expensive to develop and implement and must be carefully assessed for return on investment.
Aligns with the SCP's priority to "with neighbouring Councils to achieve the best outcomes for the western suburbs as a whole".	A City Deal, if done poorly, has the potential to fail financially and must be accompanied by thorough risk assessment and must bring appropriate expertise to the chosen project.
Shared funding would enable cost efficiencies of administrative assistance and actions.	
This structure is familiar to western suburbs local governments.	
Currently individual Council reporting and approval process would still apply meaning control and individual autonomy of the Councils is not sacrificed.	
A City Deal has the potential to provide a large return on investment.	

Terms of Reference

In addition to standard operating parameters the Terms of Reference for a Smart Cities Advisory Group or Committee should address the following matters

1. Whether it will be primarily addressing local or regional initiatives, as this will shape the stakeholder participation, and direct the efforts of the group;
2. What the key deliverables will be and how the performance will be measured. Without these there is a risk that the group or committee will have little value to the City;
3. Development of assessment, selection and implementation criteria for smart technologies that ensure a positive return to the City;
4. Included of appropriate risk appetite provisions;
5. Development of measures that assess new technologies' risk appropriately.
6. Selection criteria for suitably qualified and experienced members.

7. Whether the Advisory Group's role is to generate ideas, assess ideas, or both.

Relevant Legislation

Local Government Act 1995, section 5.8 – Establishment of Committees

“A local government may establish committees of 3 or more persons to assist the council and to exercise the powers and discharge the duties of the local government that can be delegated to committees.”

Risk

The most significant Smart Cities strategic risk is investment in technologies that fail.

An example within the City of Nedlands is its early adoption of parking enforcement technology using character recognition to read car number plates. The technology was not sophisticated enough to decipher between car number plates and other writing, leading to significant human intervention to manually review all the data it provided.

At a regional level the DiCom technology at the Western Metropolitan Regional Council failed to meet expectations despite years of endeavour. The City of Nedlands assessed its participation in this Council and elected not to participate.

On the other hand, the City's deployment of smart streetlights with sensor capabilities has been a success having met functional requirements, running more efficiently with lower maintenance costs going forward, and with the ability to add functionality in the future. It is worth noting that the City explored this option for the Adam Armstrong pavilion car park just three years earlier, however, at that time it was evident that the costs were too high, and the concept was shelved. This is an example therefore of successful deployment at the right time.

In order to mitigate risk related to new technology it is appropriate that:

- Council's risk appetite be enunciated and included in the terms of reference should this progress to a formal group/committee stage; and
- That assessment, selection and implementation criteria be developed as part of the terms of reference for any group or committee dealing with this.

Budget/Financial Implications

Option 1 – no additional cost for the business as usual option.

Option 2 – The following are some indicative costs for the preparation of a Committee agenda assuming 3 reports per agenda. This is the additional governance cost per meeting. It excludes the value of the committee members time.

				Hrs	\$
Activity	No. off	Hrly/rate	Rate	Amount	Amount
Report Preparation	3	15.2	\$100	45.6	\$4,560
Report Proof, edit, finalize	3	2	\$ 80	6	\$480
Report Approval	3	1	\$150	3	\$450
Agenda Preparation	1	2	\$80	2	\$160
Public Notice	1	1	\$180		\$180
Meeting Setup and dismantle	1	1	\$ 80	1	\$80
Meeting Attendance Minute taker	1	2	\$80	2	\$160
Meeting Attendance Senior Officer	1	2	\$100	2	\$200
Meeting Attendance Report Officer	1	2	\$150	2	\$300
Drafting Minutes	1	1	\$80	1	\$80
Minutes Approval	1	0.5	\$150	0.5	\$75
Minutes Distribution	1	0.5	\$ 80	0.5	\$40
Minutes through Council	1	1.5	\$100	1.5	\$150
			Total	67.1	\$6,915

Option 3 – Costs would be similar to option 2 in that reports would have to be prepared for the Advisory Group to consider; however, additional costs would be facilitator and meeting venue costs. There is possibly a saving in meeting advertising costs if members of the public were excluded from the meetings.

Option 4 – Costs would be similar to option 2, except that these costs would be divided over the stakeholder local governments. In the case of WESROC committee this equates to the City of Nedlands contributing about 15% of costs.

Consultation

No consultation has occurred in relation to this report.

It is recommended that the neighbouring local governments be consulted in relation to a Smart Cities focus or group.

Conclusion

Innovation has been a strong outcome for the City in delivery of a number of projects over the years. Importantly, knowing when not to move into new technologies has been part of the learning journey for the City. On the whole the organisation captures Smart City ideas as it has the capacity to deliver projects and it is not short of ideas.

The City has many talented and capable experts living within its borders and harnessing this capacity is an attractive proposition for the sake of collaboration with the community and the direct benefit their expertise will bring.

With the focus of grant funding being in the regional sphere it is considered that the City should seek the views of its neighbouring local governments to advancing Smart Cities as a collective, using its local talent.

The attached Operating Statement compares “Actual” with “Budget” by Business Units. Variations from the budget of revenue and expenses by Directorates are highlighted in the following paragraphs.

Governance

Expenditure:	Favourable variance of	\$ 314,097
Revenue:	Unfavourable variance of	\$ (89,002)

The favourable expenditure variance is mainly due to special projects and professional fees of \$239k and WESROC cost of \$82,331 not incurred yet. Other employee costs and staff recruitment cost in HR are lower by \$61k which are offset by higher insurance cost of \$46k, both of which are due to timing differences and will even out during the year.

The unfavourable revenue variance is due to timing difference of WESROC Invoice to other Western Suburbs.

Corporate and Strategy

Expenditure:	Favourable variance of	\$ 411,621
Revenue:	Favourable variance of	\$ 208,465

Favourable expenditure variance is mainly due to timing difference in professional fees of \$72k and ICT Expenses of \$211k. Customer service and ICT salaries are lower by \$118k due vacancies not back filled and timing differences and will even out during the year.

Favourable revenue variance is due to timing difference of rates income of \$197k mainly arising from higher instalment interest and administration charges of \$138k. The annual budget for Rates is \$24.477m compared to Rates levied YTD is \$24.434m.

Favourable revenue variance is due to higher income on fees and charges for Town Planning and Environmental Health of \$170K that partly offset by lower Environmental Health fines & penalties of \$20k.

Technical Services

Expenditure:	Unfavourable variance of	\$(1,272,561)
Revenue:	Unfavourable variance of	\$ (280,178)

The unfavourable expenditure variance mainly due to UGP refund from Western Power of \$842k budgeted in 2019/20. However, the refund has since been accrued in 2018/19 as the refund was confirmed in June 2019 and relates to expenses incurred in 2017/18 and 2018/19 and will be adjusted during the midyear budget review. Due to a lower level of capital works completed than budgeted year to-date, on cost of \$610k have also not been costed to projects. This will even out as the level of completed capital works increases.

Executive Summary

The City is required to review its Register of Delegations annually in accordance with section 5.46(2) of the Local Government Act 1995. This review has now been completed and is presented to Council for approval.

Recommendation to Committee**Council:**

1. **approves the delegations made to the Chief Executive Officer and Committees, as contained in the Register of Delegations, Attachment 3*; and**
2. **notes the sub-delegations from the Chief Executive Officer in the Register of Delegations, Attachment 3.**

***ABSOLUTE MAJORITY REQUIRED**

Discussion/Overview**Background**

At least once every financial year, delegations from the Local Government Act 1995 and the City of Nedlands Local Planning Scheme No. 3 are to be reviewed by the delegator, either Council or the Chief Executive Officer.

The last review was undertaken at the Ordinary Council Meeting on 23 April 2019 following gazettal of the City's Local Planning Scheme No. 3 where minor revisions were made and adopted by Council. The Annual review has now been completed by the Chief Executive Officer and the attached document was presented to Councillors at a briefing session on 17 September 2019 where the recommended changes were explained, discussed and feedback from Councillors was received.

Attachment 1 is the current Register of Delegations with track changes showing all items proposed to be removed and reasons are summarised below:

- All items noted '**Suitable for acting through**' are proposed to be removed as these are management type functions and exercisable by the Chief Executive Officer and therefore, there is no discretion in carrying out these functions. They are not required to be in register.
- All items noted '**Delegation Prohibited under the Local Government Act 1995 and Council is to perform the power of duty**' are proposed to be removed as these governing functions cannot be delegated and are brought to Council for a decision, and therefore not required to be in the register.
- All other minor changes i.e. correction or wording, conditions, duration etc are marked with track changes with comments included to explain reasons for proposed change.

Attachment 2 is the updated (new layout) Register of Delegations showing all existing delegations and proposed additional delegations with comments explaining reasons for additions.

Attachment 3 is the final updated Register of Delegations with all changes incorporated.

1. Preamble

Introduction

- a) A Council may delegate to its Chief Executive Officer, some of its powers and duties provided for in the *Local Government Act 1995*. Any decision to delegate must be passed by an absolute majority and the delegation must be in writing.
- b) The only staff member to whom the Council may delegate any of its powers and duties under the *Local Government Act 1995* is the Chief Executive Officer but the Chief Executive Officer may give delegated authority to any staff member. The Chief Executive Officer is the only staff member with the power to delegate.
- c) A Council may also delegate some of its powers and duties to committees of council by a decision passed by an absolute majority and recorded in writing.

Limits on Delegation to the Chief Executive Officer

- a) There are some powers and duties that a Council cannot delegate. They are specified where applicable.

Delegations to Committees

- a) Council may delegate its powers and duties to committees comprising only of Council members except:
 - i. any power or duty that requires a decision of an absolute majority of the local government; and any other power or duty that is prescribed; or
 - ii. the power of delegation.
- b) Council may delegate to a committee comprising of council members and employees, any of the local government's powers or duties that can be delegated to the Chief Executive Officer.
- c) Council may delegate to a committee comprising staff members or members of the public any of the local government's powers and duties necessary or convenient for the proper management of:
 - i. the local government's property; or
 - ii. an event in which the local government is involved.

- d) No delegations may be made to committees on which there are no elected members or members of staff.

Period of Any Delegation

- a) A delegation of authority has effect for the period of time specified in the instrument of delegation or where no period of time is specified, indefinitely.
- b) Any delegation under the City of Nedlands Local Planning Scheme No. 3 can only be for a maximum period of 12 months
- b) Any decision by Council to revoke or amend a delegated authority must be passed by an absolute majority.

Recording Delegations

- a) Any delegation under the Local Government Act 1995, either by Council or the Chief Executive Officer must be recorded in writing;
- b) The Chief Executive Officer is to keep a register of the delegations made by Council to the ~~CEO~~ Chief Executive Officer and made by the Chief Executive Officer to other employees (this register);
- c) Any delegation by Council to a committee must also be in writing.

Exercising Delegated Authority

- a) After either the Chief Executive Officer (or any other employee) has exercised a delegated authority the following information must be recorded in writing:
 - i. how the person exercised the power or discharged the duty;
 - ii. when the person exercised the power or discharged the duty; and;
 - iii. the persons or classes of persons, other than council or committee members or employees of the local government, directly affected by the exercise of the power or the discharge of the duty.

Review

At least once every financial year, delegations from the *Local Government Act 1995* and the City of Nedlands Local Planning Scheme No. 3 are to be reviewed by the delegator, either Council or the Chief Executive Officer.

Council's Ability to Make Decisions is not Limited

Council may still exercise any of its powers or duties that have been delegated to the Chief Executive Officer or to a committee.

"A delegation does not strip the person making the delegation of the right to exercise the delegated power or discharge the delegated duty".

(Government of Western Australia, Department of Local Government, Local Government Operational Guidelines Number 17 January 2007)

Acting Through

In addition to delegations, the *Local Government Act 1995* introduces the concept of "acting through". Where a person is "acting through", they have no discretion in carrying out the function. This could be the City performing administrative functions on behalf of the council, or implementing policies adopted by the council. This differs to a delegate who exercises the decision making function in his or her own right.

As per the *Local Government Act 1995* section 5.51, the Chief Executive Officer's functions are to:

- a) advise the council in relation to the functions of a local government under this Act and other written laws; and
- b) ensure that advice and information is available to the council so that informed decisions can be made; and
- c) cause council decisions to be implemented; and
- d) manage the day to day operations of the local government; and
- e) liaise with the mayor or president on the local government's affairs and the performance of the local government's functions; and
- f) speak on behalf of the local government if the mayor or president agrees; and
- g) be responsible for the employment, management supervision, direction and dismissal of other employees (subject to section 5.37(2) in relation to senior employees); and
- h) ensure that records and documents of the local government are properly kept for the purposes of this Act and any other written law; and
- i) perform any other function specified or delegated by the local government or imposed under this Act or any other written law as a function to be performed by the Chief Executive Officer.

Any function in the *Local Government Act 1995* which the Chief Executive Officer would carry out administratively (based on the above) can be done so via "acting through", unless the Council has an overriding policy which

would require the Council to delegate that function back to the Chief Executive Officer formally.

Legislative Authority

- a) The following sections of the *Local Government Act 1995* provide for delegation of authority:
 - i. s.5.16 to s.5.18 (delegations to Committees)
 - ii. s.5.42 to s.5.46 (delegations to Chief Executive Officer and other employees).

Register of Delegations of Authority

Preamble**Introduction**

The purpose of delegations is to assist with improving the time taken to make decisions, within the constraints allowed by the relevant legislation, which is consistent with the City's commitment to customer service.

- a) A Council may delegate to its Chief Executive Officer, some of its powers and duties provided for in the *Local Government Act 1995*. Any decision to delegate must be passed by an absolute majority and the delegation must be in writing.
- b) The only staff member to whom the Council may delegate any of its powers and duties under the *Local Government Act 1995* is the Chief Executive Officer but the Chief Executive Officer may give delegated authority to any staff member. The Chief Executive Officer is the only staff member with the power to delegate.
- c) A Council may also delegate some of its powers and duties to committees of Council by a decision passed by an absolute majority and recorded in writing.

Limits on Delegation to the Chief Executive Officer

There are some powers and duties that a Council cannot delegate. They are specified where applicable.

Delegations to Committees

- a) Council may delegate its powers and duties to committees comprising only of Council members except:
 - i. any power or duty that requires a decision of an absolute majority or a 75% majority of the local government and any other power or duty that is prescribed; or
 - ii. any other power or duty that is prescribed.
- b) Council may delegate to a committee comprising of elected members and employees, any of the local government's powers or duties that can be delegated to the Chief Executive Officer under division 4 of the *Local Government Act 1995*.

Register of Delegations of Authority

- c) Council may delegate to a committee comprising of staff members or members of the public any of the local government's powers and duties necessary or convenient for the proper management of:
 - i. the local government's property; or
 - ii. an event in which the local government is involved.
- d) No delegations may be made to committees on which there are no elected members or members of staff.

Period of Any Delegation

- a) A delegation of authority has effect for the period of time specified in the instrument of delegation or where no period of time is specified, indefinitely.
- b) Any delegation under the City of Nedlands Local Planning Scheme No. 3.
- b) Any decision by Council to revoke or amend a delegated authority must be passed by an absolute majority.

Recording Delegations

The CEO is to keep a register of the delegations made by Council to the CEO, Committees, and made by the CEO to other employees (this register).

Exercising Delegated Authority

- a) After any delegation has been exercised the following information must be recorded in writing:
 - i. how the person exercised the power or discharged the duty;
 - ii. when the person exercised the power or discharged the duty; and;
 - iii. the persons or classes of persons, other than Council or committee members or employees of the local government, directly affected by the exercise of the power or the discharge of the duty.

Register of Delegations of Authority

Review

At least once every financial year, delegations from the *Local Government Act 1995* and the City of Nedlands Local Planning Scheme No. 3 are to be reviewed by the delegator, either Council or the Chief Executive Officer.

Council's Ability to Make Decisions is not Limited

Council may still exercise any of its powers or duties that have been delegated to the Chief Executive officer or to a committee. The CEO may still exercise any powers or duties that have been delegated to employees.

Acting Through

In addition to delegations, the *Local Government Act 1995* contains the concept of "acting through". Where a person is "acting through", they have no discretion in carrying out the function. This could be the City performing administrative functions on behalf of the Council, or implementing policies adopted by the Council. This differs to an authorised person who exercises the decision making function in his or her own right.

As per the *Local Government Act 1995* section 5.51, the CEO's functions are to:

- a) "advise the council in relation to the functions of a local government under this Act and other written laws; and
- b) ensure that advice and information is available to the council so that informed decisions can be made; and
- c) cause council decisions to be implemented; and
- d) manage the day to day operations of the local government; and
- e) liaise with the mayor or president on the local government's affairs and the performance of the local government's functions; and

- i) perform any other function specified or delegated by the local government or imposed under this Act or any other written law as a function to be performed by the CEO."

Register of Delegations of Authority

Any function in the *Local Government Act 1995* which the CEO would carry out administratively (based on the above) can be done so via “acting through”, the implementation of which may be directed by a Council Resolution or Policy.

Legislative Authority

- a) The following sections of the *Local Government Act 1995* provide for delegation of authority:
 - i. s.5.16 to s.5.18 (delegations to Committees)
 - ii. s.5.42 to s.5.46 (delegations to CEO and other employees).
- b) The *Local Government (Administration) Regulations* s. 18G and 19 expand upon s.5.43 and s.5.46(3) of the Act.
- c) Legislative powers to delegate relate only to the Act in which they are contained, or to which they stipulate are permissible. It is not possible to, for example, rely on section 5.42(1) of the *Local Government Act 1995* to delegate any of a local government’s powers under another Act. Any delegation by a local government of its powers under another Act can only be delegated by the delegation provisions of that Act.

- c) A Council may also delegate some of its powers and duties to committees of Council by a decision passed by an absolute majority and recorded in writing.

Limits on Delegation to the Chief Executive Officer

There are some powers and duties that a Council cannot delegate. They are specified where applicable.

Delegations to Committees

 - ii. any other power or duty that is prescribed.
- b) Council may delegate to a committee comprising of elected members and employees, any of the local government's powers or duties that can be delegated to the Chief Executive Officer under division 4 of the *Local Government Act 1995*.

- d) No delegations may be made to committees on which there are no elected members or members of staff.

Period of Any Delegation

- a) A delegation of authority has effect for the period of time specified in the instrument of delegation or where no period of time is specified, indefinitely.
- b) Any delegation under the City of Nedlands Local Planning Scheme No. 3.
- b) Any decision by Council to revoke or amend a delegated authority must be passed by an absolute majority.

Recording Delegations

The CEO is to keep a register of the delegations made by Council to the CEO, Committees, and made by the CEO to other employees (this register).

Exercising Delegated Authority

- a) After any delegation has been exercised the following information must be recorded in writing:
 - i. how the person exercised the power or discharged the duty;
 - ii. when the person exercised the power or discharged the duty; and;
 - iii. the persons or classes of persons, other than Council or committee members or employees of the local government, directly affected by the exercise of the power or the discharge of the duty.

Review

At least once every financial year, delegations from the *Local Government Act 1995* and the City of Nedlands Local Planning Scheme No. 3 are to be reviewed by the delegator, either Council or the Chief Executive Officer.

Council's Ability to Make Decisions is not Limited

Council may still exercise any of its powers or duties that have been delegated to the Chief Executive officer or to a committee. The CEO may still exercise any powers or duties that have been delegated to employees.

Acting Through

In addition to delegations, the *Local Government Act 1995* contains the concept of "acting through". Where a person is "acting through", they have no discretion in carrying out the function. This could be the City performing administrative functions on behalf of the Council, or implementing policies adopted by the Council. This differs to an authorised person who exercises the decision making function in his or her own right.

As per the *Local Government Act 1995* section 5.51, the CEO's functions are to:

- a) "advise the council in relation to the functions of a local government under this Act and other written laws; and
- b) ensure that advice and information is available to the council so that informed decisions can be made; and
- c) cause council decisions to be implemented; and
- d) manage the day to day operations of the local government; and
- e) liaise with the mayor or president on the local government's affairs and the performance of the local government's functions; and
- f) speak on behalf of the local government if the mayor or president agrees; and
- g) be responsible for the employment, management supervision, direction and dismissal of other employees (subject to section 5.37(2) in relation to senior employees); and
- h) ensure that records and documents of the local government are properly kept for the purposes of this Act and any other written law; and
- i) perform any other function specified or delegated by the local government or imposed under this Act or any other written law as a function to be performed by the CEO."

Any function in the *Local Government Act 1995* which the CEO would carry out administratively (based on the above) can be done so via “acting through”, the implementation of which may be directed by a Council Resolution or Policy.

Legislative Authority

- a) The following sections of the *Local Government Act 1995* provide for delegation of authority:
 - i. s.5.16 to s.5.18 (delegations to Committees)
 - ii. s.5.42 to s.5.46 (delegations to CEO and other employees).
- b) The *Local Government (Administration) Regulations* s. 18G and 19 expand upon s.5.43 and s.5.46(3) of the Act.
- c) Legislative powers to delegate relate only to the Act in which they are contained, or to which they stipulate are permissible. It is not possible to, for example, rely on section 5.42(1) of the *Local Government Act 1995* to delegate any of a local government’s powers under another Act. Any delegation by a local government of its powers under another Act can only be delegated by the delegation provisions of that Act.

Discussion/Overview

Council policies are reviewed periodically to ensure they reflect the strategic direction and responsibilities of Council and are kept up to date.

The procedure for policy reviews is as follows:

- Policies will be reviewed and updated by staff with any amendments due to changes in any Legislation, Local Laws, Regulations etc. and recommendations made to the Executive Management Team;
- Staff recommendations are reviewed by the Executive Management Team and amended as required and recommendations made to Council;
- Where there are major amendments to existing policies these policies are then presented at a Councillor Briefing for discussion prior to presentation to Council;
- Where a number of policies have common themes, these policies may be combined to establish a new policy. Redundant and old policies will be revoked where they are substantially changed, and a new replacement policy will be presented at a Councillor Briefing for discussion prior to presentation to Council; and
- Administration may at times recommend a policy be revoked with no Council Policy to replace it. This may occur when it has been identified that the policy is operational or covered under legislation and/or the responsibility of the Chief Executive Officer.

Policy statements should provide guidance for decision-making by Council and demonstrate the transparency of the decision-making process.

Payments to Employees in Addition to Contract or Award Policy

This policy was reviewed as required and it is recommended that the Payments to Employees in Addition to Contract or Award Policy (attachment 1) be approved with the following minor changes:

- removal of KFA (Key Focus Area) – Governance and Civic Leadership which was referenced in our previous Strategic Community Plan but is no longer referenced in our current Strategic Community Plan.
- Increase in gift from \$150 to \$200, to longest servicing staff at 20, 30 and 40 years;
- Inclusion of gift up to \$120 value for delivered flowers where there is a death or birth in the immediate family.

The Local Government Act section 5.50 requires a local government to prepare this policy where an employee is finishing their employment with the City.

A similar policy is required for elected members and in this circumstance the maximum gift value is \$100 per year. The City's policy position is \$50 per year of service for elected members.

Disposal and Acquisition of Land Policy

This policy was reviewed as required and it is recommended that the Disposal and Acquisition of Land Policy (attachment 2) be adopted with the following changes (as tracked in attachment 2):

- removal of KFA (Key Focus Area) – Governance and Civic Leadership which was referenced in our previous Strategic Community Plan but is no longer referenced in our current Strategic Community Plan;
- Modifications in red proposed to acknowledge free hold land value and the opportunities this brings; and
- Modifications in blue following Councillor Briefing on 10 December 2019 relating to acknowledge Community benefit from City land ownership.

Fireworks in the City Policy

This Policy was reviewed as required and it is recommended that the Fireworks in the City Policy (attachment 3) be adopted with one minor change (as tracked in attachment 3) being the removal of KFA (Key Focus Area) – Community Development which was referenced in our previous Strategic Community Plan but is no longer referenced in our current Strategic Community Plan.

Debt Recovery Policy

This policy was reviewed as required and no changes are proposed therefore it is recommended that the Debt Recovery Policy (attachment 4) be adopted.

Investment of Council Funds Policy

This policy was reviewed as required and it is recommended that the Investment of Council Funds Policy (attachment 5) be adopted with the changes (as tracked in attachment 5) for the following reasons:

The process for the disposal of land assets is set out in the *Local Government Act* and *Local Government (Functions and General) Regulations 1996* to ensure fairness and transparency to achieve the best outcome and price.

Statement

This policy outlines the decision-making process for the disposal or acquisition of land. In order to maintain its land asset base, Council's preference is for the proceeds of the disposal sale of land to be used to acquire other land for its own operational use, for income producing purposes or for capital investment.

- Investigating opportunities to add value to freehold land by development of that land for commercial purposes.

Commented [MG3]: Recognises Council's ability to use land to help keep rates low.

Land zoned as freehold land that is surplus to the City's requirements can be sold or otherwise disposed in accordance with the Act, as considered and determined by Council.

Disposal of Leasehold or Licenced Interests

Community Purpose

Commercial Purpose

Council recognises that it has the potential to generate income for the community through commercial lease of reserve land in appropriate circumstances.

Formatted: Underline

Where Council has an interest in land and/or premises, which are leased or licensed for commercial purposes, the lease or licence may be renewed to the existing lessee or licensee subject to the terms of any extension permitted in the lease or licence, provided the lessee or licensee is not in major breach of terms of the lease or licence.

- Alternate future community use
- Alternate future use/s, including capital and operating income potentials

Greenways Policy

~~KFA~~ ~~Natural and Built Environment~~

Status Council

Responsible Division Planning & Development

Objectives

- a) To designate greenways around the City.
- b) To outline how greenways will be developed and/or enhanced.
- c) To protect, retain and promote flora and fauna along local and regional greenways within the City.

1. Context

Definition

Greenways - (Also referred to as *Greenway Corridors*)

Networks of land containing linear elements that are planned, designed and managed for multiple use including ecological, recreational, cultural aesthetic, or other purposes compatible with the concept of sustainable land use. Primarily greenways act as networking links to better enable travel by wildlife using greenways as connecting corridors between natural areas, encouraged through the specific planting of types of native flora. These act as areas to connect wildlife populations that would otherwise be separated by human activities or structures (such as roads and development).

A greenway does not have to be any specific width or size, only a narrow area of land can be effective as a greenway. Land identified as being part of the greenway network within the City is planted with specific types of native flora to encourage and support wildlife utilising the greenway corridor for habitat and movement.

The City's greenways form a part of the Perth Metropolitan regional greenway network. This policy identifies the local and regional greenways that are located within the City's area of management and control.

1.1 Background

The City of Nedlands is well regarded as a tree-lined leafy municipality. This was acknowledged as part of the community led *Our Vision 2030* process which as part of its natural environment vision declared:

“We will live sustainably within a thriving natural environment. Our gardens, streets and parks will be leafy and green despite water restrictions. Our bushland, river and beaches will be healthy ecosystems supporting local wildlife and enjoyed by people. We will be recognised as a global benchmark for sustainable living because of our innovative use of water, energy and other resources.”

The City of Nedlands Greenways Policy evolved following the development of “A Strategic Plan for Perth’s Greenways 1998” by Tingay and Associates. This report was commissioned by the Ministry for Planning in association with the Commonwealth Department of Transport and Regional Development. Contained within this report were recommendations for local governments to identify potential and existing green corridors in their structure plans and Town Planning Scheme (if possible) along with the development of a Local Planning Policy to deal with the planning and implementation of local greenways.

The Greenways Corridors Policy was approved in 2001. Prior to its approval public consultation was undertaken with residents requested to provide comment on the policy.

Developing and enhancing Greenways through revegetation programs on public land provides the opportunity for achieving this vision. In doing so Greenways can become a crucial feature of the urban fabric as they link the natural and built environments of the City’s neighbourhoods and provide for biodiversity and achieve sustainability.

This is a Council policy for public land to guide its activities to:

- retain and enhance existing greenways; and
- create new greenways around the City.

This policy encourages greater biodiversity and enhanced amenity around the City’s neighbourhoods.

1.2 Designated greenways (map attached)

Regional and local greenways have been designated along transport routes where they connect to parkland, remnant bushland and government lands. The connecting parkland, remnant bushland and government lands also form part of the green corridor.

Regional greenways provide linkages between regionally significant remnant bushland areas, coastal habitats, riverine habitats and wetlands as well as parklands. Local greenways provide linkages between locally significant remnant bushland, open space, parks and recreational areas along with extending regionally significant bushland.

1. The following routes have been designated Greenways due to their ability to:
 - Provide linkages from the coast to the river
 - Provide linkages along foreshore areas
 - Provide linkages between wetlands
 - Provide linkages between large bushland areas and small fragmented bushlands

- b) Local indigenous species are preferred when planting or seeding greenways.
- c) Where possible, local seed stock will be used to maintain genetic diversity and biodiversity.
- d) Consultation with adjoining residents and landowners will be undertaken prior to greenways being developed.
- e) Adjoining residents and landowners will be encouraged to plant complementary species of native flora where their boundaries adjoin a greenway.

Special measures will be taken to retain trees within greenways that are used as a source of food and for roosting by endangered Carnaby's Black-Cockatoo.

Objective To allow the keeping of bees within the City of Nedlands subject to appropriate management to avoid nuisance.

Context

On 28 February 2012 Council approved the retention of a hobby bee hive at a residence in the City of Nedlands. Conditional to this approval Council resolved that the City's Administration prepare a report outlining conditions under which approval for similar applications can be assessed under delegations by Administrative staff.

Statement

Honeybees possess a sting and therefore require proper and responsible management, so they do not create a problem for neighbouring properties. The City notes that whilst bees exist in the natural environment, there are residents who enjoy keeping bees for recreation. There are occasions where the keeping of bees may ~~be in conflict with~~ conflict with those who have allergies or experience nuisance as a result of the keeping of bees. Effective management has been demonstrated to minimise adverse consequences that may result from keeping bees in a residential environment.

The following items address essential considerations for keeping bee hive(s) in the City of Nedlands:

1. Hive density

A maximum of two (2) hives may be permitted within a single residential lot.

2. Hive Placement

- Bee hive(s) should not be positioned in the front yard of suburban residence
- Where possible, bee hive(s) should be positioned out of sight of the public
- Where practical the entrance of the hive(s) is to be located in such a direction that bees fly across the property allotment.

3. Barriers

Flight path barriers are recommended to be above 2m when crossing property boundaries. This may be achieved by using screens, shrubs, walls, hedges, fences, etc., thereby encouraging bees to fly at a height.

4. Lights

It is recommended that a physical barrier, screen or similar is provided between the hive entrance and light sources from immediate properties.

5. Water Supply

An adequate supply of water must be available with each hive.

5.6. Docile bees

The applicant is to monitor the hive to maintain a docile strain of bees.

6.7. Hive management

The applicant must be able to justify that they have sufficient knowledge, expertise or experience to manage a bee hive and are capable of identifying problems that may arise, particularly in relation to swarm control, temperament of the colony, disease management and prevention, and maintenance of safety to nearby properties. This includes management of any transport of the colony and hives that may be required.

8. Registration

Any person who owns or who has charge, care or possession of honeybees or beehives is required to register with the Department of Primary Industries and Regional Development (DPIRD) within fourteen (14) days of becoming a beekeeper. Registered beekeepers, both amateur and commercial are allocated a hive identifier.

9. Quality Assurance Schemes

DPIRD have developed two (2) quality assurance schemes for beekeepers and honey producers being:

- B-Qual
- B-Safe

These are designed to ensure the consumer receives a safe and healthy Product. There is a further additional requirement to comply with the Food Standards Australia New Zealand (FSANZ) Food Safety Standard, which requires food

businesses to develop a Hazard Analysis and Critical Control Point (HACCP) based food safety plan.

7-10. Notification to immediate residences

- A City of Nedlands representative will advise immediate neighbours following receipt of an application to keep a bee hive(s)
- Neighbours will be provided with 10 working days to comment in writing to the application.
- If an objection is received the application for keeping bees is to be determined by the Chief Executive Officer.

8-11. Approval for the keeping of bees can be revoked at any time by the Chief Executive Officer. In the event that approval is revoked, the applicant has 21 days to remove all bees and hives from the property.

Natural Areas Management

Status Council

Responsible Division Planning and Development

Objective The City of Nedlands recognises the importance of remnant bushland areas and the value of effectively managing local bushland within a local context, based on a scientific outcomes focus. The bushland reserves will be managed for the purposes of:

- biodiversity,
- conservation; and
- recreation outcomes for the community.

Context

The natural areas within the City are situated on the Swan Coastal Plain contained within one of the world's 35 global biodiversity hotspots. These areas contain unique flora and high species diversity. Key threats include environmental weeds, plant pathogens, feral animals, fire management, illegal dumping, un-managed access and climate change.

This Policy provides direction for which the City will ensure bushland under its responsibility is managed in a way that complies with federal and state environmental legislation, applicable policy and management frameworks, to enhance conservation and biodiversity outcomes.

This policy will assist the City to:

- Improve public amenity through the improvement of bushland condition and access,
- Conserve biodiversity through the protection and enhancement of natural areas,
- Maintain and enhance genetic diversity through the improvement of ecological corridors and habitat,
- Improve the resilience of natural areas in the face of a changing climate,
- Effectively manage the scope and assist the activities of bushland "Friends Groups",
- Reduce bushfire risk through environmental weed control; and
- Receive grant funding assistance through the implementation of Natural Areas Management Plans.

Statement

The City has six natural areas which are all actively managed. They include coastal, riverine and inland natural areas which cover approximately 60Ha across the district.

The effective management of natural areas requires scientific assessment and measured outcomes via the implementation of identified actions. These are identified via the ongoing development, implementation and review of the Natural Areas Management Plans by the City. The Plans provide guiding information, strategies and management actions necessary to protect, enhance and restore natural areas and biodiversity within the City.

The plans provide for the measurement of the program's success through the science-based monitoring of bushland condition, environmental weed and flora and fauna surveys. Where it is identified that progress is not meeting expectations, management actions and focus areas will be reviewed and modified, in order to increase the effectiveness of the Reserve's ongoing management. The monitoring and review process will occur during the 5-year review of the management plans.

Management plans have been developed with actions provided for natural area management, in the following natural areas located throughout the City:

- Shenton Bushland, 24.57Ha located in Shenton Park (of which 3.46Ha is vested in the Department of Health and 0.11Ha Department of Education),
- Allen Park Bushland, 18.9Ha located in Swanbourne (of which 2.9Ha is vested in the Department of Defence),
- Point Resolution Reserve, 4Ha located in Dalkeith,
- Birdwood Parade, 5.7Ha located in Dalkeith,
- Hollywood Reserve, 6.41Ha located in Nedlands; and
- Mt Claremont Oval Bushland, 2.21Ha located in Mt Claremont.

The management plans provide a strategic and operational framework to stakeholders involved in the management of the City's natural areas. These include the City of Nedlands, Department of Defence (for Allen Park), Department of Health (for Shenton Bushland), volunteers and bushland "Friends" groups.

Debt Recovery

Responsible Division Corporate and Strategy

Procedure

1. Rates Debt Recovery

- a. This procedure will apply equally to all ratepayers except registered pensioners and seniors.
 - i. In the case of registered pensioners there will be no recovery action for rates that are eligible for deferment. Outstanding rates that fall into this category will be automatically deferred at the 30th June each year.
 - ii. In relation to the rubbish charges for registered pensioners and both rates and rubbish charges for registered seniors the ratepayer shall be entitled to have until the 30th June following the issue of the rate notice to pay the account.
 - iii. Registered pensioners and seniors with an outstanding balance will be issued with a reminder after the normal fourth instalment 3 weeks prior to 30th June each year to ensure that they are aware that they are required to pay their rates by the 30th June and so that they don't lose their rebate.
 - iv. Post the 30th June recovery action will commence for any arrears of the respective amounts from the period prior to the previous 30th June.
- b. Following the issue of rate notices, rate payers will have the statutory timeframe in which to either pay their rates in full, elect to pay by instalment and pay the first instalment, or if they are experiencing difficulties enter into an agreed arrangement for the payment of the rates. The statutory period is 35 days from the date of issue. After this period Council will apply penalty interest on arrears.
- c. Following this initial due date, Council will issue final notices to any ratepayer who has either not paid anything at all or has not paid an amount that is at least equivalent to the first instalment, other than those that have entered into a special arrangement. Final notices will remind these ratepayers that they are required to either pay in full or establish a payment arrangement whether that is the standard instalment plan, or some other agreed alternative. Rate Officer to obtain Manager Financials Services approval for the issuance of the Final Notice.

- d. Twenty-one days (Fourteen days' notice and seven days grace) after the issuance of the Final Notice, the Final Demand will be issued to all ratepayers who meet the criteria and subject to the checks outlined below:
- Has not paid anything at all; or
 - Has paid an amount less than the first instalment; and
 - Is not either a registered pensioner or senior; and
 - Has not entered into any agreed payment; and
 - Has received a Final Notice.

Independent Officer to check the final list of ratepayers to be sent to identified ratepayers. Rates Officer and Independent Officer to initial on the list and Manager Financial Services to approve the list.

- e. Seven days after the issue of the final demand notice, those outstanding rates assessments that have still not met Council's conditions will be referred to the City's appointed collection agents without any further warnings.

List of ratepayers referred to collection agency to be initialled by the Rates Officer and Independent Officer and approved by the Manager Financial Services.

- f. The Chief Executive Officer shall ensure that there are appropriate procedures and practices in place such that at each step of the recovery process, appropriate checking and controls are in place. In committing to this, it is acknowledged and understood that correspondence and payments may cross in the mail.
- g. The full costs of any recovery action in the debt recovery process are chargeable to the ratepayer. These costs will be incurred as soon as an instruction has been given for the recovery action to take place. These costs are to be charged to the ratepayer whether or not the action has taken place prior to settlement of the outstanding debt unless it can be demonstrated, or it is acknowledged that the action is an error on Council's part.
- h. If the debt remains unpaid, or an arrangement for payment has not been agreed to within the recovery period (1-12 weeks) these accounts will be referred on for legal action. The full cost of any legal action in the debt recovery process is chargeable to the ratepayer. These costs will be incurred as soon as an instruction has been given for the legal action to take place and will include court fees and any costs associated with handling or service. These costs are to be charged to the ratepayer whether or not the General Procedure Claim / Judgement is served prior to the settlement of the outstanding debts unless it can be demonstrated, or it is acknowledged that the action is an error on Council's part.

- i. If the debt remains unpaid after a General Procedure Claim/Judgement has been served the Chief Executive Officer will assess the position in relation for the best prospects for the collection of the rates debt. In considering this, the Chief Executive Officer may determine:
 - i. To proceed with a Goods and Land Warrant (Property Seizure Sales Order):
 - i. If a title search indicates that there is a mortgage the lender may be notified of the default by the mortgagee in the payment of their rates;
 - ii. If the property is known to be a rental property, either commercial or residential, a notice may be served on the lessee in accordance with the Local Government Act requiring the lessee to remit rental payments to Council, until such time as the rates are paid.
 - j. Should the options identified above not be available, or prove unsuccessful in the recovery of the rates, then a report will be presented to Council outlining all the steps previously undertaken and advising on the remaining courses of action that are available to Council under the Local Government Act.
 - k. At any stage from the issue of the rates notice through the debt recovery process a ratepayer is entitled to propose an arrangement for the payment of rates and/or rubbish charges different from the normal instalment arrangements in order to clear the debt. Such arrangements may be accepted by the Chief Executive Officer at his/her discretion. In considering the acceptance of such arrangements the Chief Executive Officer will consider:
 - i. The payment history of the ratepayer,
 - ii. The stage of the debt recovery process that has been reached,
 - iii. Whether the proposed arrangement will clear the debt by the next 30th June.
 - l. Ratepayers who elect to pay by normal rates instalment arrangements pay a fee set by Council. Recognising the costs associated with setting up and monitoring special arrangements Council may also choose to set a fee to be charged to ratepayers for accepting such arrangements.
 - m. Recovery action will apply to any ratepayer who opts to pay by instalments or is paying according to an agreed arrangement and who subsequently defaults on any of those arrangements. The action will be in accordance with the above arrangements commencing with the issue of an Instalment Default Notice except where recovery action had already commenced prior to the arrangement being entered into. In this case recovery action will commence from where it was previously up to. If legal action is required where a ratepayer has defaulted on instalments or an agreed arrangement,

then all arrangements shall be deemed cancelled and the legal action shall be issued for the full amount of the outstanding debt.

- n. Similar recovery action will apply to interim rates issued during the course of the year. In this case ratepayers will have 35 days from the issue of the interim rate notice and any required recovery action will follow as above from this point.

2. General Debtors Debt Recovery

- a. The debt recovery process for General Debtors commences 30 days after the issue of an invoice. At the end of the month, statements are issued to all debtors.
- b. On the 1st and 3rd Friday of each month, overdue debtors are identified, and follow-up action is taken.
- c. Debtors aged more than 30 days – the debtor is contacted via telephone or email or an Amount Owing Query letter is sent out to obtain a confirmed payment date and follow-up action to be taken.
- d. Debtors aged more than 60 days – a demand letter is sent (with a copy to the officer who initiated the raising of the invoice for any input). The demand letter is to include a copy of the original invoice, together with a warning that debt collection and or legal action may follow. The demand letter gives 14 days to pay.
- e. 14 days after the issue of the demand letter a Notice of Appointment of Debt Collector or Intention to Summons giving 7 days to pay the account is to be issued. A copy of the Notice is to be issued to the Manager of the department from which the invoice originated.
- f. The notice will also advise that the following actions may be taken if the debt remains unpaid after the 7 days:

Premises or Facilities Booking and Provision of Services:

- Further bookings of premises or facilities may be disallowed
- Any prior bookings made for the use of premises or facilities for future dates may be cancelled and timeslots may be reallocated.
- Future bookings of premises or facilities may be on cash terms
- Cessation of use of premise or facilities
- Cessation of services
- Penalty shall be charged if applicable

Lease, Rental, Management & Utility Charges for Council Properties:

- Interest charged in accordance with the terms and conditions of the agreement
 - Termination of agreement in accordance with the terms and conditions of the agreement
- g. 7 Days after the issue of the Notice, if the account remains unpaid, the relevant actions above will be carried out. Debts over \$500.00 will be referred to the Collection Agency after obtaining approval from Manager Finance. Debts over \$5,000.00 will be referred to the lawyers for issuance of the summons after obtaining approval from Manager Finance.
- h. In preparing any debtors for summons action the following checks must be undertaken:
- Finance Officer must obtain authority from the Manager Finance to prepare for summons action.
 - Turnaround time from preparing for the issue of a summons and getting the advice to Council's appointed debt collection agency and getting the agency to prepare and issue the summons is critical to reduce unnecessary problems and queries due to crossed mail. Thorough checking however should not be compromised. All officers involved in the process and Council's appointed debt collection agency must be committed to the time frame before commencement
 - Check that all return to sender mail has been processed.
 - Check that:
 - Cashiers are not holding any problem receipts, and
 - All receipt postings are up to date.
 - All relevant details of the debtor must be checked thoroughly before proceeding with summons issue.
 - Check for:
 - Accuracy of detail and financial data,
 - Memos to ensure no record of why the debtor should not receive a summons, and
 - Check City's systems for relevant correspondence for at least the last 12 months to ensure that there is no record of why the debtor should not receive a summons.
 - Finance Officer must submit the final checked request to issue a summons to debtor to the Manager of Finance who once satisfied and having given authority in writing must then submit the request to the Director of Corporate Services for final approval.
 - Once all approvals have been given and immediately prior to forwarding to Council's appointed debt collection agency the Finance Officer must check the debtor again to ensure there have been no last-minute changes or payments received.

- i. For any debts that are \$50 or less, a written request for the debt write off will be submitted to the Director of Corporate Services for approval. A copy of the approved request will be submitted to the Director department from which the invoice originated.

After 14 days following the issue of a summons, if it is not responded to either with payment in full including costs, or an acceptable signed arrangement with acknowledgment of debt, then a report is to be prepared and referred to the Director Corporate Services. The report is to give consideration to options for the pursuit of the summons, e.g. if there has been notice of intention to defend whether or not the City wishes to pursue it, the issue of a warrant, etc.

3. Infringements Debt Recovery

- a. Subject to an appeal all parking infringements will be submitted to Fines Enforcement Registry for recovery action. This will follow an initial 21 days to pay and the issue of a demand letter. All costs for the issue of the demand letter and the forwarding of the debt to Fines Enforcement Registry if necessary, shall be added to the infringement and recovered from the party to whom the infringement has been issued.
- b. The person to whom an infringement has been issued can appeal against the issue of that infringement. Appeals in relation to infringements will be accepted at any stage prior to the infringement being lodged with Fines Enforcement Registry for collection. When an appeal is received all recovery action is put on hold until the outcome of the appeal has been determined. If an appeal is successful, the infringement is withdrawn. Where it is unsuccessful, the infringement recovery process then continues.

4. Underground Power Debt Recovery

- a. The recovery of underground power charges will follow the same process as for rates recovery (refer 1).

Greenways

**Responsible
Division**

Planning & Development

Procedure

1 Retaining existing trees

When developing, conserving and/or enhancing greenways:

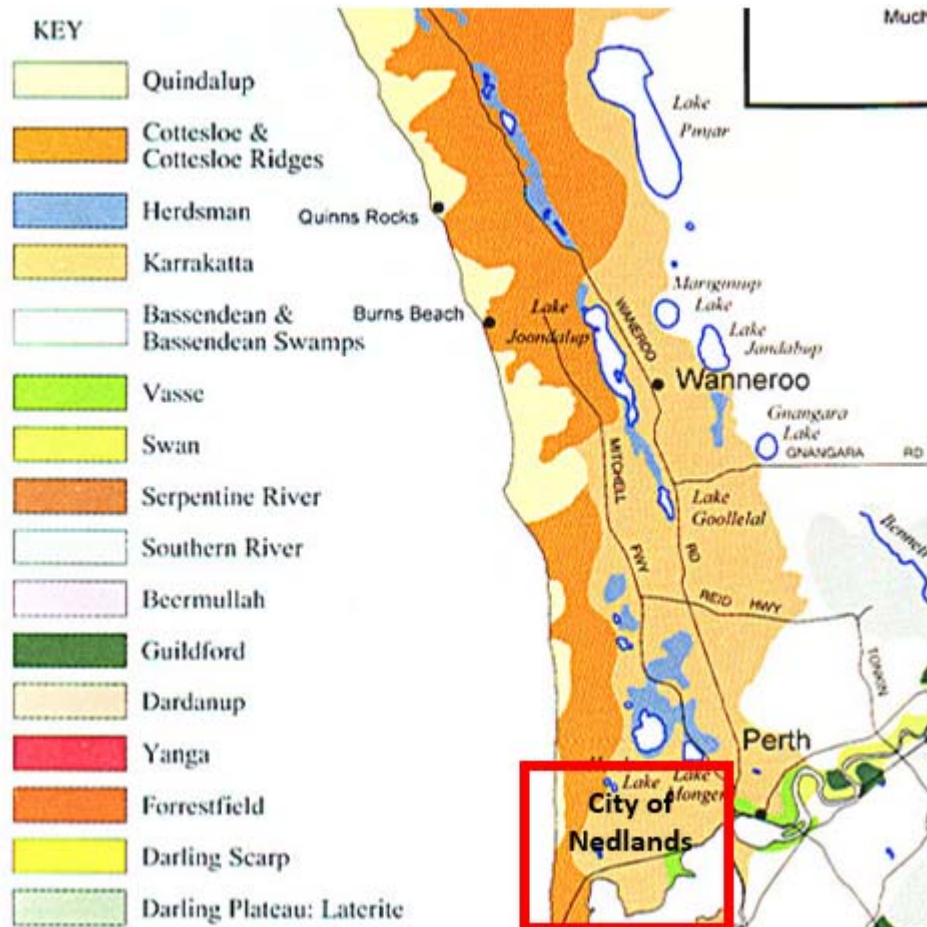

- a) Healthy trees will not be removed
- b) Trees that are declining will be tested and appropriate treatments administered if required
- c) Weed trees that are used for feeding, roosting and nesting will be retained (where possible)

2 Using local indigenous species

Local indigenous species are to be used according to relevant soil type. The soil types found within the City of Nedlands include:

- Cottesloe and Cottesloe Ridges
- Quindalup
- Karrakatta

These are shown on the map below.

Map 1: Soil Types Perth Swan Coastal Plain

For plant species types please refer to the below links:

<https://apacewa.org.au/regions/cottesloe-cottesloe-ridges-region/>

Quindalup: <https://apacewa.org.au/regions/quindalup-region/>

Karrakatta: <https://apacewa.org.au/regions/karrakatta-region/>

3 Using local seed stock

In all instances, local seed stock is preferred. This includes choosing only Swan Coastal Plain species according to their soil type. As local seed is becoming difficult to source due to sprawling urban development, the City may source local seed from within local reserves. All species for revegetation should be purchased from bushland revegetation nurseries that utilise preventative measures to ensure stock is not contaminated with plant pathogens.

4 Consulting with adjoining residents/landowners

Residents will be consulted if required through the City's community engagement and consultation processes.

5 Encouraging adjoining residents/landowners to plant complementary species of native flora and fauna

Residents and adjoining landowners will be encouraged to plant complementary native species through advertising of the annual plant subsidy scheme, the City's Landscaping Local Planning Policy, the consultation process for the greenway development and on the City's website.
