## Executive Summary

There have been 55 accidents in the last five years at the Railway Road/Aberdare Road intersection. This intersection is a strong candidate for Black Spot Funding to improve safety due to the number of accidents that have occurred.

The City of Nedlands and the City of Subiaco currently have funding committed by Main Roads (MRWA) to develop a design for this intersection. The City of Nedlands have taken the lead in the development of this design. A concept design has now been completed, and support from both the City of Nedlands and the City of Subiaco Council is now sought to progress the design for funding submission.

## Recommendation to Committee

### Council:

1. **Supports progressing the concept design to detailed construction drawings for Black Spot funding submission, provided the City of Subiaco endorses the project;**
2. **To include the Railway Road/Aberdare Road intersection improvement project as part of the 2021/22 budget, provided the City of Subiaco endorses the project; and**
3. **Approves the tree removal as detailed in Table 2 within the City of Nedlands to facilitate construction.**

## Discussion/Overview

### Background

Railway Road and Aberdare Road are two busy distributor roads carrying over 18,000 vehicles per day. The intersection has recorded a significant number of accidents within the last 5 years. The data is dominated by same lane rear crashes (38) on Aberdare Road and thru-right crashes (12) making up around 90% of all accidents. The number of

accidents makes this intersection a strong candidate for Black Spot funding to improve safety at this intersection.

The initial investigation was undertaken by the City of Subiaco in 2014. This resulted in State Government funding two design options that were finalised in 2016. The first option included road widening to the southern side of Aberdare Road. This option was not supported by the City of Nedlands based on the removal of significant trees. An alternative option was developed that would necessitate the relocation or protection of major overhead and underground utility services that would far exceed the available budget.

## Proposed Design

The concept design (refer to Attachment 1) is the result of discussions with the City of Subiaco, Main Roads WA, Public Transport Authority and Department of Transport. The design is focused on optimising safety and efficiency based on future traffic demand. The key features of the concept are:

- Provision of a dual protected right turn lane for northbound traffic on Railway Road;
- Construction of additional lane capacity within the intersection on Aberdare Road;
- Removal of the existing on-road cycle lanes with construction of off-road shared paths (both sides) to improve safety and amenity; and
- Re-alignment of the intersection to improve sightlines for drivers, pedestrians and cyclists.

The traffic model developed for the proposed modification indicates that the overall intersection performance is expected to improve. These improvements are summarised in Table 1.

*Table 1. Expected intersection improvements*

	<b>Current</b>	<b>Opening Year</b>
<b>Average vehicle delay (AM Peak)</b>	46.9s	35.5s
<b>Average vehicle delay (PM Peak)</b>	53.1s	44.1s
<b>Aberdare Road westbound queue length</b>	161m	33m
<b>Railway Road northbound queue length</b>	128m	49m
<b>Level of Service</b>	E	D

The intersection realignment will improve sight lines and encourage lower speeds within Aberdare Road as a result of the modified configuration. The proposed road configuration aligns with the Metropolitan Region Scheme (MRS) with the remaining section of land scheduled to be dedicated as road reserve in March 2020 (refer to Attachment 2). The design also integrates with any duplication of traffic lanes within Aberdare Road.

The proposed shared path facilities forms part of the Long-Term Cycle Network creating an important link to the hospital precinct, nearby schools and parks. The final alignment of the shared path is subject to further detailed investigation to minimise any adverse impact on the existing trees.

The road safety improvements will reduce the number and severity of accidents. The modifications will also reduce congestion and driver frustration which should have a positive effect on driver behaviour across the City's road network.

### Acquisition of Railway Reserve

The provision of an extra northbound lane on Railway Road will require acquisition of Railway Reserve. Preliminary discussions with the Public Transport Authority (PTA) have indicated their support for future transfer of land to the City.

### Tree Relocations and Removals

A number of trees will need to be removed within the City of Nedlands as outlined in Table 2 with the majority of trees impacted being within the City of Subiaco.

*Table 2. Estimated number of tree removal/relocations*

Local Government Authority	Type of Trees	Qty	Officer comments
City of Nedlands	Semi-Mature <i>Corymbia maculata</i>	5	<p><b>Railway Road – Western verge</b></p> <p>The five trees proposed for removal are along Railway Road within 2m of the existing carriageway. The trees are semi mature, exhibit good health and vigour, range in height from 11-15m, and have canopy spread of approximately 10m. The canopy spread on the eastern side, extends over the carriageway by approximately 5 m.</p> <p>The removal of these trees is required to enable the creation of protected right turn lanes on Railway Road to help reduce the number of right-angle crashes.</p> <p>New plantings will be undertaken to replace the trees removed.</p>

<b>City of Subiaco</b>	Semi-Mature Cassia fistula	1	<b>Aberdare Road - North Eastern Corner</b>
	Semi-Mature Acacia saligna	1	New plantings will be undertaken to replace the trees removed.
	Young Liquidamber styraciflua	1	
	Young Eucalyptus torquate	1	<b>Aberdare Road – Northern verge</b>  The trees in Aberdare Road are growing under power lines and will not have the potential to develop to mature specimens before they will be pruned back. The canopy cover created by these trees is limited and an improved canopy cover could be achieved if the corresponding number of trees were planted in alternative locations.
	Mature Eucalyptus leucoxylon	1	
	Semi-Mature Eucalyptus torquate	3	
	Senescent Agonis flexuosa	3	
	Semi-Mature Melaleuca lanceolata	2	
	Semi-Mature Schinus molle	1	
	Semi-Mature Corymbia calophylla	1	
	Young Agonis flexuosa	1	
	Semi-Mature Eucalyptus grandis	2	<b>Railway Road – Western verge</b>  The loss of canopy cover from these trees will be replaced with tree planting in alternative sites.
	Semi-Mature Eucalyptus botryoides	2	

### Key Relevant Previous Council Decisions:

Ordinary Meeting of Council 28 June 2016, Item TS10.16

*“That this item be deferred pending further information.”*

### Consultation

Administration has worked collaboratively with the City of Subiaco, Main Roads Western Australia (MRWA), Public Transport Authority (PTA) and the Department of Transport (DoT) in relation to the development of the concept design. To date, the Administration has received written endorsement for the design by MRWA, PTA and DoT (refer to Attachment 3).

The concept design will also be presented to City of Subiaco Council for their endorsement.

Further to Council's endorsement of the design, the Administration will consult with Metropolitan Cemeteries Board in relation to the final alignment of the shared path on the southern verge.

## Budget/Financial Implications

The project is currently estimated in the order of \$1.1 million. However, based on the number of services to be adjusted this may result in potential cost increases in the order of 50%. If the City's Black Spot application is successful, the estimated cost would be split between Main Roads and both Local Governments. This would result in both the City of Nedlands and the City of Subiaco paying only 16 per cent of the cost to upgrade the intersection. A summary of the estimated project contribution is provided in Table 3.

Table 3. Project cost contributions (+50% scenario)

Project Total	Main Roads	City of Nedlands	City of Subiaco
	Two-thirds contribution	One-Third contribution	
\$1,500,000	\$1,000,000	\$250,000	\$250,000

The cost breakdown for this project is summarized in Figure 1.

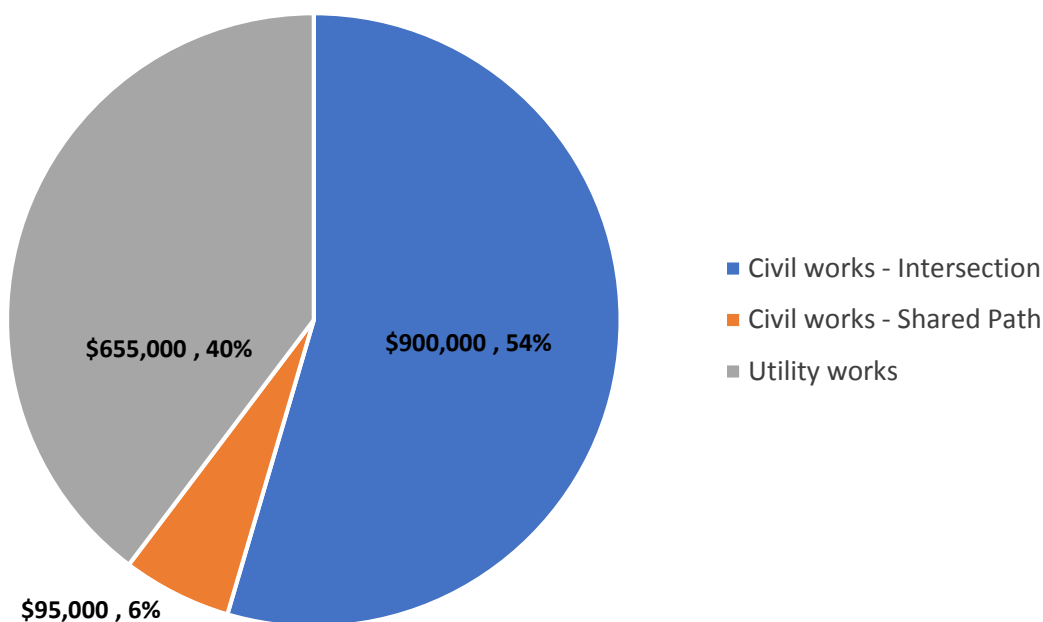

Figure 1. Project cost breakdown (+50% scenario)

The City has also applied to DoT to fund the construction of the shared path. If successful, the cost associated with the shared path construction would be split 50% DoT and 50% Municipal. This is expected to reduce municipal funding contribution by an estimated \$47,500.

**ENDORSEMENT OF TRAFFIC SIGNALS STAGE 2 TSAP – RAILWAY ROAD / ABERDARE ROAD, SHENTON PARK**

I refer to your submission seeking endorsement for Traffic Signals at the above location. Main Roads Western Australia wishes to advise you that endorsement **is granted** for the modifications of traffic signals subject the following:

- Removing the right filtering movement from Railway Road to Aberdare Road
- Introduction of double right movement from Railway Road to Aberdare Road
- Left turn lane length on Aberdare Rd increased
- New additional eastbound lane along Railway Road. Endorsed lane allocation: Thru, shared thru & right, right

MRWAs' [Traffic Signal Approval Policy](#) (TSAP) has recently been updated to reflect current practice, which now includes a three-stage process. This endorsement reflects Stage 2 of this process. Please refer to the policy to ensure that all necessary documentation is provided for Stage 3. Main Roads will check 100% design drawings to ensure requirements of Stage 2 endorsement are incorporated. Submissions for Stage 3 approval shall contain:

1. Traffic Signal drawing in LMA format (100% design. Refer to Appendix 2 of TSAP)
2. Pavement marking and signs drawing in LMB format (100% design)

Written approval and stamped final design drawings will be issued to the applicant via the Works by Others process. This approval shall only remain valid for a period of **two years** from the date of notification. Please note that should the final submission fail to reflect the agreed Stage 2 endorsement with regard to modelling, phasing and geometry then updated traffic models will need to be re-submitted to substantiate changes. Under no circumstances shall any work commence on site without Main Roads final approval.

The attached concept design for Railway Road and Aberdare Road intersection will meet Transperth operational requirements and therefore the Public Transport Authority has no objection to the current concept design.

Let me know if need anything else.

Hi Gary,

As discussed, the two-way bus movement is maintained through the intersection. Please refer to attached screenshot of the bus movements. We only tested the movements for Austroads long rigid bus as it was found to have the most constrained movement.

I will send through a copy of the plans with bus movements when available. I've just got some feedback from Main Roads which will result in minor tweaks to the linemarking.

If PTA are satisfied with the design, can you please provide something to us in writing confirming PTA's support for the concept design and support for the City's acquisition of railway reserve for the project?

Happy to discuss any further queries you may have.

Irene

Sorry for the delay in responding.

The attached plan appears to reduce the access for buses to the bus bridge to a single lane at the intersection and therefore would not be supported by the PTA. While the bus bridge over the railway is only a single lane, buses operate across the bridge in both directions. The two lane bus access at the intersection needs to be maintained to allow the two way bus operations over the bridge.

Give me a call if you wish to discuss.

Hi Gary,

Further to our conversation on the 25 July 2019, please find attached the latest concept drawings for the intersection. We plan to take this design to both City of Subiaco and City of Nedlands Council in September for support to progress the concept design for BlackSpot funding.

Are you able to provide something to us in writing confirming PTA's support for the concept design and support for the City's acquisition of railway reserve for the project?

We are also still waiting for further information from PTA's Lands Department on the process for acquiring railway reserve.

Dear Gary,

The City is proposing to upgrade the Railway Road/Aberdare Road intersection to address traffic issues at the intersection. Following discussions with Main Roads and the City of Subiaco, we are currently looking to provide extra capacity to aid intersection efficiency through additional lanes on both Aberdare Road and Railway Road (see attached concept drawing). In particular, the additional lane on Railway Road will require PTA land.

The City would like to meet with you to discuss any requirements and future plans you may have for this location. Can you please advise when you would be available for a meeting either next week or the week after?

Hi Irene

Thanks for the updated concept designs for the Aberdare / Railway shared path and intersection.

DoT's preference would be to connect the shared path from Railway road to Smyth road to tie into the existing concrete path. However if there is insufficient space in the verge without removal of multiple established trees, the eastern extent shown in the designs is suitable.

**Subject:** Railway Aberdare Shared Path

Hi Bronwyn,

Please find attached the most up to date concept design for the intersection.

We have discussed the cycling options you have previously suggested to us with Main Roads. The outcome of our discussions is summarised below:

- Removal of crossing on the northern side of intersection and install new crossing on the southern side – Main Roads have confirmed that this would improve the efficiency of the intersection. However, Main Roads would only support one crossing on either the north or the south but not both. We believe that the existing crossing is along the pedestrian/cyclist desire line and that relocation of this crossing may result in hazardous pedestrian/cyclist behaviour.
- Cycle head start on Aberdare Road – Providing a separate cyclist head-start signal would reduce the efficiency of the intersection. We considered just providing the bicycle head-start without the signal but this would result in insufficient space for buses and reduced storage capacity on Aberdare Road.
- Ed Rose has reviewed the design along with Traffic Services (Maryely Rueda) and indicates support for the current design with minor modifications to the splitter island on Aberdare Road

Given the above, is there anything you would like us to explore? If not, would you be able to provide us written endorsement for the concept design by the end of next week (16 August 2019) so that we can progress this through our Council?

If you would like to discuss this project, I'm happy organise a meeting or discuss over the phone.

Kind Regards,

Irene Chiang  
Design Engineer

  - b. Lot 116.**

## **Discussion/Overview**

### **Background**

Lot 50 Dalkeith Road, Nedlands (Lot 50) is a parcel of land currently owned in freehold by the Water Corporation (refer Attachment 2). It abuts Lot 51 Dalkeith Road, Nedlands (Lot 51) which is owned in freehold by the City. These two parcels of land are used together to form one drainage sump (refer Attachment 3). The City currently maintains Lot 50 in conjunction with Lot 51 as part of the drainage system in the area.

### **Proposal**

In September 2016, at the request of the Executive Management Team (EMT), Administration enquired with the Water Corporation about the potential for the creation of an easement over the sump at Lot 50. The easement would be to provide access to and from nearby lots (known as the Captain Stirling shops) as a future development consideration.

The Water Corporation advised the City that it has no infrastructure in Lot 50 and that there may be an opportunity for the City to potentially acquire it by way of sale with conditions. The conditions are that the City grant to the Water Corporation easements on two plots of land under the City's control. The easements are for the protection of Water Corporation infrastructure. The two lots are:

- 1. Lot 1 on Diagram 24967, No.290 Marine Parade, Swanbourne, and**
- 2. Lot 116 on Deposited Plan No.80 Melvista Avenue, Dalkeith.**

Negotiations between the Parties netted an offer on the 19 December 2018 for the City to acquire Lot 50 from the Water Corporation via a \$1 Contract for Sale prepared by the City's solicitors. The offer would include:

- 1. The sale of Lot 50 to the City by the Water Corporation;**

2. The offer of a 15m wide easement from the City to the Water Corporation over sewer and water mains extending north of the Hackett Rd Sewer Pump Station to Melvista Ave on Lot 116 (refer Attachment 4);
3. The offer of a 15m wide easement from the City to the Water Corporation over the sewer main within Lot 1, extending south from the SAS barracks to the Swanbourne Beach Reserve carpark (refer Attachment 5);
4. The Water Corporation have agreed to prescriptive planting over the easements as follows:
  - a. Lot 1 – The Grantee (Water Corporation) will not unreasonably withhold the consent required if the City's planting complies with the Water Corporation's "Working Near Water Corporation Pipelines" guidance document as modified from time to time.
  - b. Lot 116 -The parties acknowledge the Grantor (the City) reserves the right to itself to maintain turf on that part of the Easement Land which is currently lawn.
5. Grantee covenants with the Grantor, on both easements, that it will reinstate and make good the surface of the Easement Land following the completion of the Grantee's work. It is to be noted that final sign off for the reinstatement is to be to the satisfaction of the Director of Technical Services.

## **Action**

On the 20 December 2018, Administration engaged McLeods Barrister and Solicitors (McLeods) to prepare the relevant documentation for the Contract and Grants of Easements. The final documentation was approved by both the City, by way of the CEO on the 4 September 2019 and the Water Corporation, by way of its Property and Procurement Division on the 5 September 2019.

Once approved by Council, the seal will be applied to the Contract and easement documents in triplicate in presence of the Mayor and CEO, who are then required to sign the Contract and Easement documents in triplicate. At this point the documentation is said to be executed by the City.

Once executed, the Contract and easement documents will be then be collected from the Administration building by McLeods. On receipt, McLeods will forward the documents to the Water Corporation for execution.

On execution of the documents by the Water Corporation, McLeods will arrange for lodgment of the Contract of Sale at Office of State Revenue for assessment of Transfer Duty. It is to be noted that there is no transfer duty payable by the City as advised by McLeods.

At settlement, McLeods will arrange a joint lodgment between themselves and Water Corporation's representative. This ensures that the Transfer of Land and easements can be lodged at Landgate simultaneously.

## **Outcome**

Once Lot 50 is in the City's possession, it will have the ability to control any future development as required for this lot.

## **Legislation**

### **Execution of Documents**

The Local Government Act 1995 states:

#### 9.49A. Execution of Documents

  - (a) the common seal of the local government is affixed to it in accordance with subsections (2) and (3); or

- (2) The common seal of a local government is not to be affixed to any document except as authorised by the local government.
- (3) The common seal of the local government is to be affixed to a document in the presence of:
  - (a) the Mayor or President; and
  - (b) the Chief Executive Officer or a senior employee authorised by the chief executive officer, each of whom is to sign the document to attest that the common seal was so affixed.
- (4) A Local Government may, by resolution, authorise the Chief Executive Officer, another employee or an agent of the Local Government to sign documents on behalf of the Local Government, either generally or subject to conditions or restrictions specified in the authorisation.

### **Key Relevant Previous Council Decisions:**

Nil

## **Consultation**

Negotiations were undertaken on behalf of the City of Nedlands by the CEO and by senior staff of the Procurement and Planning division of the Water Corporation.

As there is no immediate change of use of the lot, no public consultation has been undertaken at this time.

## **Budget/Financial Implications**

The purchase cost of \$1 and the cost of preparation of the documentation is covered by the Shared Legal Fees budget.
