Strategic Plan

KFA: Governance and Leadership

The City of Nedlands Repeals Local Law 2016 repeals superfluous, defunct and obsolete local laws. In effect this allows the City to be a more efficient and effective local government by removing outdated local laws from the public record

Background

At the Ordinary Meeting of Council on 23 June 2015 a resolution was made to revoke the City of Nedlands Signs Local Law 2007. Later at the Ordinary Meeting of Council on 24 November 2015 a resolution was made to revoke the City of Nedlands Fencing Local Law 2007.

To fulfill these resolutions, a new local law must be made for the purposes of repeal. The proposed City of Nedlands Repeals Local Law 2016, found in Attachment 1, meets the requirements of the *Local Government Act 1995* to 'make' a local law for the purpose of repeal/revocation.

The City of Nedlands Signs Local Law was rendered obsolete with the adoption of the new Advertising Signs Local Planning Policy on 23 June 2015. Council resolved to revoke the City of Nedlands Signs Local Law 2007 at this meeting.

Council resolved to revoke the City of Nedlands Fencing Local Law 2007 on 24 November 2015, which became obsolete with the adoption of the new Fill and Fencing Local Planning Policy.

Key Relevant Previous Council Decisions:

Item PD31.15 – Draft Local Planning Policy – Advertising Signs (23 June 2015)

“Council resolved to revoke the City of Nedlands Signs Local Law 2007, revoke Council’s Roof Signs Policy adopt a draft Advertising Signs Local Planning Policy with amendments.”

Item PD49.15 – Proposed Amendments to Fill and Fencing Local Planning Policy (LPP) and Subsequent Proposed Revocation of Fencing Local Law (24 November 2015).

“Council resolved to approve and advertise a draft amended Fill and Fencing Local Planning Policy for the purpose of public consultation and instructed Administration to advertise the City’s intention to revoke the City of Nedlands Fencing Local Law 2007.”

Item CPS13.16 – City of Nedlands Repeals Local Law 2016 (26 April 2016)

“Council resolved to make the proposed City of Nedlands Repeals Local Law 2016 as detailed for the purpose of public advertising, advertise in accordance with section 3.12 (3)(a) of the Local Government Act 1995, forward a copy to the Minister for Local

Government and requests a further report be prepared at the conclusion of the public advertising period.”

Consultation

Required by legislation:	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>
Required by City of Nedlands policy:	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>

Section 3.12 (3) of the *Local Government Act 1995* requires that the City advertise the proposal to make a new City of Nedlands Repeals Local Law 2016 by local and statewide public notice, make copies available for inspection and invite submissions for a period of at least 42 days.

The proposed local law was advertised locally in the Post Newspaper on Friday 29 April 2016, and advertised statewide in the West Australian Newspaper on Monday 9 May 2016. Notices were placed in the City’s Administration and two libraries along with copies of the local law, and information was made available online on the City’s website under the ‘Your Voice’ consultation tool.

Submissions closed on Friday 1 July 2016, which provided 54 days for submissions to be provided, from the date of the statewide advertisement released, 12 days longer than the legislated period required.

As required by the *Local Government Act 1995* a copy was provided to the Minister for Local Government and Communities.

The City’s online consultation tool recorded 61 persons engaged in the City’s local law review projects, two of whom downloaded the full proposed Repeals Local Law for viewing.

The City received one total submission during the advertised period, from a representative of the Department for Local Government and Communities. Nil submissions from members of the public were received.

The submission from the Department for Local Government and Communities contained constructive feedback and suggested minor formatting changes that have been incorporated into the proposed local law contained in Attachment 1 for Council adoption. No major changes were proposed that would require the City to restart the review process.

Legislation / Policy

Local Government Act 1995
Local Government (Functions and General) Regulations 1996
Advertising Signs Local Planning Policy
Fill and Fencing Local Planning Policy

Budget/Financial Implications

Within current approved budget:	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>
Requires further budget consideration:	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>

Funds are available in the City of Nedlands operating budget for statutory advertising.

Risk Management

Failure to properly repeal the City of Nedlands Signs Local Law 2007 and Fencing Local Law 2007 could result in uncertainty for the community over what is considered acceptable by Council in relation to signs and fencing, and may result in inconsistent decision making on applications for planning matters relating to both.

There is a risk that the Western Australian Parliamentary Joint Standing Committee on Delegated Legislation may request amendments or even disallow the proposed City of Nedlands Repeals Local Law 2016. This risk has been mitigated by seeking input from the Senior Legislation Officer at the Department of Local Government and Communities as the requirements and content for the new proposed local law.

Discussion

The procedure for making local laws is detailed in the *Local Government Act 1995* and is a specific process that must be adhered to in order for the local law to be accepted by the Western Australian Parliamentary Joint Standing Committee on Delegated Legislation.

Section 3.16 of the *Local Government Act 1995* requires periodic reviews of Local Laws. A Local Government is to carry out a review within 8 years from the day each local law commenced. The City of Nedlands Fencing Local Law and Signs Local Law that are repealed through the proposed City of Nedlands Repeals Local Law 2016 were both due for review.

Replacement of these local laws with new Local Planning Policies allows the City to more effectively manage fencing and signs within the City and better serve the needs of the community.

Conclusion

It is recommended that Council adopt and ‘make’ the City of Nedlands Repeals Local Law 2016 for gazettal.

Strategic Plan

KFA: Transport

This KFA aims to make the City easily accessible by car, public transport, bicycle and on foot. In doing that, it contributes to an environment-friendly City that cares for the planet. It makes the City safer and more efficient for both business and community activities and includes parking and traffic management.

Background

The *Local Government Act 1995* enables a local government to make local laws that are necessary for the good government of their area.

The City currently has a current City of Nedlands Parking and Parking Facilities Local Law that was published in the *Government Gazette* on 23 October 2013. Whilst this local law has been predominantly effective in allowing the City to regulate the parking and stopping of vehicles areas throughout the City, a requirement to review and adjust this local law has arisen, and it is proposed that a new local law be made in its place. This report compares the City's current local law with the new one proposed.

Over recent years the City has been subjected to continuously increasing demands for parking availability, and to identify and implement parking strategies that protect amenities for residents. It is a priority for the City to be able to implement effective, safe and manageable solutions for parking that are supported by a local law that is clear and directive.

Key reasons for reviewing the City's current Parking and Parking Facilities Local Law 2013 include:

- There are a number of terminologies used to described the trafficable land between private boundaries, including street, carriageway, road, thoroughfare, highway, verge, right of way, and lane.

Some of these are defined within the Local Law, some are defined in other Local Laws in operation by the City, and some are referred to the Road Traffic Code for a definition. Terminologies vary within various state Acts, policies, standards and guidelines.

This can be confusing for road users to identify what land can be used for parking that is compliance with the local law. For example, it is prohibited to park within a specified distance from an intersection on a thoroughfare. The definition of the thoroughfare includes all land between boundaries, thus this prohibition also applies to land that is nature strip (verge) as well as the actual road carriageway. But as the definition for 'thoroughfare' is not clearly provided in the local law, it is commonly misunderstood that this clause in the local law also applied to the verge. It is impractical for readers of the local law to need to look up and cross reference the document with other local laws or state legislation to identify clear definitions.

The new Parking and Parking Facilities Local Law 2016 addresses this issue and provides clear definitions for terminologies used within the document and associated local law documents. These definitions have been derived from the Road Traffic Code and the City of Nedlands Thoroughfares Local Law to ensure that the Local Law has consistency with existing City by-laws and state legislation that has been passed by parliament.

- To date the City has had issues with road users parking in bicycle lanes, these issues include incidents and cyclist injuries. Parking within a thoroughfare so that an obstruction is created to a bicycle lane presents a safety risk to cyclists.

The Road Traffic Code 2000 clearly prohibits the stopping of a vehicle in a bicycle lane, with some exceptions, under Regulation 157(d).

Division 6 — Other places where stopping is restricted

157. Stopping in bus lane, transit lane, truck lane or bicycle lane

A driver shall not stop in —

- (a) a bus lane; or*
- (b) a transit lane; or*
- (c) a truck lane; or*
- (d) a bicycle lane,*

unless the driver is driving a public bus or taxi, and is dropping off, or picking up, passengers.

Section 3.21 of the *Local Government Act 1995* empowers local governments to ensure that thoroughfares are not obstructed as part of performing their executive functions.

3.21. Duties when performing functions

(1) In performing its executive functions, a local government, so far as is reasonable and practicable, is to —

(a) ensure that —

- (i) the lawful use of any land, thoroughfare or premises is not obstructed, and any reasonable request that a person makes to avoid such obstruction is met; and...*

A clause has been added to the City's proposed new Parking Local Law to prohibit the obstruction of bicycle lane by the parking of a vehicle that is consistent within the prohibitions of the Road Traffic Code 2000.

- Minor modifications have been made to clause 5.14, stopping on a verge/nature strip, as a result of legal advice. These modifications do not change the provisions of this clause within the local law, but clarify that the clause applies to any portion of a vehicle parked on a verge.
- Clauses relating to permit exemptions have been modified to introduce additional variations of parking restrictions the City may implement. This will provide flexibilities in the City's strategies for the effective provision and management of parking, and increase the amenity of street parking for eligible City rate-payers through the provision of permits.

This will enable new additional parking options to be considered during community consultations that are carried out when problematic parking issues are identified or raised by members in the community.

The clause changes will allow for 'permit holders excepted' to be specified against a number of existing types of parking restriction signage. Currently permit holders are exempt from parking restrictions that 'limit' the length of time parking is allowed, for example unlimited length of parking in areas where '3 hours parking' is permitted, and this will continue with no changes. However, in addition to this exemption, the changes to the clause in the local law would allow for 'permit holders accepted' be added to 'no parking' and 'no parking between specified times of days or on specific days signage', for eligible permit holders to be exempt from compliance with those additional types of sign too.

Discussions were held with Councillors during workshops about making provisions for the implementation of paid parking on freehold City land as part of this local law review. These discussions were held to discuss accommodating the management of paid parking should Council make a decision in the future to implement paid parking within freehold owned 'car parks'.

A number of local governments currently contain provisions for paid parking within their local laws. Some contain schedules of locations for which paid parking is implemented and enforced, with their local law requiring a review any time the schedule is required to be updated.

The current local law contains a clause that would be effective for use should Council make a decision to implement any paid parking on freehold land in the future, and the need therefore arise for the City to enforce parking that is non-compliant with any signage installed within a parking area directing a driver to pay for parking. This clause is 4.2(3)(b) and carries a modified penalty of \$70:

4.2 Restrictions on parking in particular areas

- (3) A person shall not park a vehicle—
 - (b) in a parking area except in accordance with both the signs associated with the parking area and with this local law;

As such it is not proposed at this time that any changes be required during this review of this local law to facilitate any paid parking to provide for it being implemented in future, as the City currently has sufficient means to manage this if required.

Key Relevant Previous Council Decisions:

The City of Nedlands Parking and Parking Facilities Local Law 2013 was adopted by Council on 27 August 2013. The local law is due for review in 2021 but can be reviewed at any time in the interim.

Required by City of Nedlands policy:	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>

Should the proposed City of Nedlands Parking and Parking Facilities Local Law 2016 be supported the City is required to advertise the proposal to make the new local law by local and statewide public notice, make copies available for inspection and invite submissions on the proposed local law. The submission period is required to be at least six weeks in compliance with Section 3.12(3) of the *Local Government Act 1995*.

Requires further budget consideration:	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>

Funds are available in the City of Nedlands operating budget for statutory advertising.

Risk Management

Failure to implement the proposed local law will cause delays in being able to provide more flexible parking arrangements that could offer an amenity benefit to City residents.

There is a risk that the Western Australian Parliamentary Joint Standing Committee on Delegated Legislation may request amendments to, or even disallow, the proposed City of Nedlands Parking and Parking Facilities Local Law 2016. This risk has been mitigated to as much extent as possible by basing the local law on the City's current adopted Parking and Parking Facilities Local Law 2013, and cross referencing any changes against other approved local laws in the metropolitan Perth area. The risk has been further mitigated by checking the proposed changes for consistency with the appropriate State legislation, as per Section 3.7 of the *Local Government Act 1995*.

Discussion

The procedure for making local laws is detailed in the *Local Government Act 1995* and is a specific process that must be adhered to in order for the local law to be accepted by the Western Australian Parliamentary Joint Standing Committee on Delegated Legislation.

Section 3.12 (2) of the Act states that the first action in the process of making a local law is for the Mayor to give notice to the meeting of the purpose and effect of the proposed local law. Regulation 3 of the *Local Government (Functions and General) Regulations 1996* states that this can be achieved by ensuring that:

“(a) the purpose and effect of the proposed local law is included in the agenda for that meeting;
(b) the minutes of the meeting of the Council include the purpose and effect of the proposed local law.”

Section 3.12 (3) of the *Local Government Act 1995* then requires that the City advertise the proposal to make a new City of Nedlands Parking and Parking Facilities Local Law 2016 by local and statewide public notice, make copies available for inspection and invite submissions on the proposed local law.

It is anticipated that the local law making process will take approximately six months, enabling the operation of the proposed City of Nedlands Parking and Parking Facilities Local Law 2016 to commence in early 2017. Should any major changes be required to the proposed local law, or if it is disallowed by the Joint Standing Committee on Delegated Legislation, the process will need to be restarted which will delay the commencement of the local law.

Should this proposed local law be implemented, it will repeal and replace the existing City of Nedlands Parking and Parking Facilities Local Law 2013 that is currently in operation.

Attachment 1 contains the proposed City of Nedlands Parking and Parking Facilities Local Law 2016 including mark up to show how it differs to the City’s current local law.

Conclusion

The recommendation put to Council allows for the public advertisement of the City of Nedlands Parking and Parking Facilities Local Law 2016 as the first part of the process for ‘making’ the local law. The ‘making’ of this local law will provide amenity benefits to residents and will provide clearer provisions about the regulation of parking or stopping of vehicles in all or specified thoroughfares and reserves under the care, control and management of the City and to provide for the effective management and operation of parking facilities.
