

Additional Information

Focus

My focus is on protecting local character, supporting families, and ensuring council decisions serve the long-term interests of Hollywood Ward residents. I support careful planning, well-managed development, strong protection of green spaces, and transparent governance that puts the community first.

What I Bring to Council

I bring strong legal and policy expertise, a scientific understanding of land and the environment, experience chairing meetings and building consensus, practical community engagement skills, and a balanced, evidence-based approach to decision-making. I am committed to families, fairness and good governance.

Volunteer and Community Involvement

My volunteer experience reflects my commitment to community service and local engagement. I have volunteered with the Environmental Defenders Office, been a Law Mentor at Queensland University of Technology, and been a church volunteer leading family support programs and coordinating community events and fundraising. I am also a member of the UN Decade on Ecosystem Restoration Task Force and a former Inclusion and Diversity Committee member. These roles have strengthened my ability to listen to different perspectives, support people in need, manage community programs, and work constructively with people from diverse backgrounds.

Qualifications

MSc in Nature Management, University of Copenhagen

LLB (Hons), QUT

BASc (Distinction), QUT

Graduate Diploma in Law, Policy and Governance, UWA

Graduate Diploma in Legal Practice (Distinction), College of Law

Closing statement

I am committed to listening to residents, acting with integrity, and working collaboratively to support families, strengthen community connections, and protect the qualities that make the Hollywood Ward a great place to live.
