

Additional Information

I am seeking your support to serve as an independent Coastal Ward Councillor for the City of Nedlands, because I believe our City needs a fresh start and new leadership that restores good governance and integrity, and delivers better outcomes for the people of Mt Claremont and Swanbourne.

If elected, I will focus on stabilising the City of Nedlands by securing a strong and credible CEO with proven local government experience, providing strong foundations to rebuild confidence and reduce staff turnover.

I will support the Mayor, Councillors and administration in developing disciplined financial management and build a Council that looks ahead and works together in a professional and respectful way. I will support developing stronger bonds with other western suburb Councils - unity on major issues facing our communities.

I live in the Coastal Ward, and it will be a priority for me to keep the Mt Claremont and Swanbourne communities informed about what Council is doing and proactively listen to what people feel is important, then act on that.

In the Coastal Ward, some of the key issues I'm keen to focus on include:

- Working with the community to identify ageing social and sporting facilities in Mt Claremont and Swanbourne and support their gradual improvement over time
- Support the ongoing improvement of laneways in Mt Claremont
- Support the community in protecting and preserving Melon Hill Bushland for current and future generations
- Provide practical support to retain the Mt Claremont Fields as parks and gardens to preserve for the entire community
- Provide targeted support to help seniors remain active, connected, and thriving within the community
- Respect heritage and balance sensible development to keep our Coastal Ward unique. Community first.

Together we can create a stronger future for the City of Nedlands.

Thankyou - Stephen Kobelke LLB MBA
