The Experience to Secure our Community's Future

Our community, our City and our Council need stable, experienced leadership-leadership that listens, understands local issues, and knows how to deliver results.

That's why I've decided to run for Council.

I served for nearly ten years as Director General of the Department of Local Government, bringing deep experience in governance, accountability and decision-making at a time when Nedlands needs it most.

A strong community looks after people at every stage of life. As Director-General, I oversaw initiatives in community development, seniors, volunteering, youth and multicultural interests, giving me experience in so many areas that our Council has responsibility for.

I have worked across government, boards and business, including serving as Deputy Chair of Economic Development Australia.

Sound financial management is essential to protecting what matters most to residents. I have the financial expertise needed to oversee Council's budget responsibly, ensuring core services are maintained, long-term planning is realistic, and pressure on rates is kept as low as possible.

My family and I have lived in Nedlands and Dalkeith for 30 years. We raised our children here, I'm a member of the Nedlands Golf and Dalkeith Tennis Clubs and I continue to serve on the MLC College Council.

Like you, I value our neighbourhood character, community facilities and quality of life.

I will stand up for local residents in planning and development decisions, advocating for our tree canopy and for high-quality outcomes that respect neighbourhood character, and are supported by the right infrastructure.

Local voices must be heard-especially when State decisions have a direct impact on our community.

Now more than ever, Nedlands needs stability, experience and sound judgment.

That's why I'm asking for your vote.

Together, let's give our community the leadership it deserves.
