Focused on restoring a Council that resolves problems before they become crises, orderly meetings will again be safe domains for fair, open discourse. His priorities are clear: complete outstanding audit work; deliver infrastructure and capital works program; grow tree canopy; support sport and community life.

Disciplined financial practice begins with governance reform, including CEO selection and performance processes that empower Council and support a stable workplace that retains skilled staff.

He will protect public heritage precincts at Allen Park, Nedlands Foreshore and Karrakatta, and remains vigilant for inappropriate developments as demonstrated by his staunch DAP representation.

Six dedicated years on Council bring the organisational knowledge and leadership necessary for effective democratic decision making.
