

Additional Information

The City of Nedlands needs a fresh approach after much upheaval and as a council member I will strive along with my fellow councillors to bring and maintain fairness, equity openness and transparency within its ranks. There has been a significant change in our suburb, for example urban infill and the loss of amenity being amongst some of the most debated topics amongst ratepayers.

These need to be freshly addressed especially with the upcoming sale of the Irwin Barracks expected to generate thousands of new dwellings in the city.

While change is inevitable and welcome, Nedlands needs councillors that are willing to address the issues that affect the future of its ratepayers.

Our community is growing at a rapid pace and we are losing some of the City's much lauded character and envious tree canopy.

As a councillors for the Melvista ward I will strive to be one that listens to their constituents and brings along with my fellow councillors a council with good governance, consultative decision making and transparency.
