Appendix 1 - Information to be Provided by the Applicant

Prior to the formal lodgement of a development application defined in Clause 4.1 of this policy, the applicant is required to submit material to enable a design review, unless otherwise waived by the City. The material required for design review is to sufficiently illustrate site analysis, site design response and the intended design proposal. This includes, but is not limited to the following:

1. Site analysis

Understanding the site context is important for the Design Review Panel to assess how well a proposal responds to its site and context.

The key elements of a site analysis include:

- a) Site location / wider context plan;
- b) Aerial photograph;
- c) Local context plan (showing surrounding land uses);
- d) Site context and survey plan; and

2. Site design response

The proponent should provide sufficient information to clearly articulate the considerations that have informed the broader site design approach.

The key elements of a site design response include:

- a) Assessment of site opportunities;
- b) Building massing studies to consider the quantity and arrangement of built form within the three-dimensional boundary within which development can occur;

- f) Prevailing breezes and ventilation strategies (for multiple dwellings);
- g) Relationship to public domain and surrounding properties;
- h) Investigation of amenity provided for occupants and neighbouring developments;
- i) Retention of existing trees and vegetation;
- j) Landscape design approach (deep soil zones, location and species of trees);
- k) Communal open spaces;
- l) Consideration of culturally relevant or heritage elements; and
- m) Any relevant specialist advice.

3. Design proposal

Sufficient drawing material should be presented to outline the intended design proposal.

The key elements of a pre-development application design proposal include:

- a) Development details;
- b) Design quality statement outlining how the proposal responds to the ten design principles contained in Schedule 1 of *State Planning Policy 7.0 Design of the Built Environment*;
- c) Precedents that have informed the design proposal;
- d) Site plan;
- e) Floor plans;
- f) Elevations of the proposal in context;
- g) Sections of the proposal in context; and
- h) 3D images or visualisations.
