

Candidate Details

Ballot paper name	HODSDON, Benedict
Candidate name	Benedict Gervase HODSDON
District	City of Nedlands
Nominating for	Mayor for City of Nedlands
Election type	Ordinary
Enrolment status	HODSDON, Benedict is eligible to stand for election as a resident of the City of Nedlands.

I am a long-term resident of the City and have a great understanding of what makes this area so desirable.

I worked for many years teaching and now I am working in small business. This has given me a unique perspective on what makes Nedlands such a positive and green district.

If elected Mayor I will be fiscally responsible. I will balance the need to get great value from rates while providing for the much needed enhancement and renewal of public spaces and building.

I will also pursue the finalisation of the undergrounding of power over the whole city.

Collaboratively, I will work with the State government and local interest groups to ensure better outcomes from infill that both protect amenity while enhancing our community.

Environmentally I will endeavour to limit the use of harmful herbicides by replacing them with steam based or less toxic controls. I will also endeavour to have more trees planted on verges and in our park lands.

I look forward to serving you.
