Following extensive community consultation, the City of Nedlands adopted its 2013-2023 Strategic Community Plan in December 2012. The 10-year plan identified that community infrastructure such as roads and community facilities were in urgent need of upgrading and renewal over the next decade. Therefore, much of the plan has been focused on the City’s infrastructure. There has been a substantial renewal of infrastructure throughout the City – in 2016-17, approximately $18.5 million was invested in roads, pathways and stormwater. This has resolved a number of potential flooding sites. Originally, it was proposed to install 100 soakwell units over a four-year period – but 210 units have been installed, several of these in the Hollywood and Mt Claremont areas. This has resolved a number of potential flooding sites. Strategic Community Plan: progress and achievements

Mayor’s message

I would like to begin by wishing everyone a very happy Christmas for 2017. At this time of year, we all have the opportunity to reflect back on the year we have had and the things that came with it. I hope you all had a happy and successful year for council, looking at all to our achievements in 2017. In my role as Mayor, I must meet people from all groups, nationalities and points of view to ensure the best for the City of Nedlands. This diversity will play a part of our thinking but I believe it is important to always review the Strategic Community Plan, which will help shape the next 10 years.

Nedlands 2027 is a continuation of the 2013-2023 Strategic Community Plan, originally adopted in late 2012 after exhaustive engagement with residents, businesses, community organisations, sporting clubs and visitors to the City. The City’s existing internal and external plans, including information on demographic trends and available resources, will inform Nedlands 2027. The plan will prioritise community aspirations and social, economic and environmental objectives. We have also built upon our 10-Year Financial Plan, which guides our evaluation of major projects and operational initiatives. The plan is the stepping stone towards securing our future and building on our financial sustainability – while continuing to invest in our infrastructure and service our community. Within this context, over the past five years, we:

• Deemed more than $12.1 million in capital projects.
• Achieved savings in operational costs of more than $1 million.
• Remained strong in financial terms.

We are pleased to say you can now see various innovative state-of-the-art facilities and equipment available in predominantly the Hollywood and Mt Claremont areas. This has resolved a number of potential flooding sites. More information about the Strategic Community Plan can be found at your Nedlands.wa.gov.au.

I am pleased to say that the Point Resolution Child Care Centre is located at 53 Julland Parade, Dalkeith, next to the Dalkeith Bowling Club.

Nedlands Rangers best in the West

It’s official — the City of Nedlands ranger team is the best in the State, after winning the WA Rangers Association top honour in September. Named the 2017 Ranger Team of the Year and presented with a perpetual shield, winner’s shield and inscribed clock, it is the second time they have won the award.

City of Nedlands Manager Health and Compliance Andrew McKillop, who oversaw the ranger team, said the award was thoroughly deserved. “It’s the culmination of consistent high customer service standards and a strong work ethic in an often difficult role,” he said. “The ranger team is highly adaptive to change, ensuring best practice work methods are always maintained. The ongoing support from City staff and Council is always expressed, and they know that. Nominations were strongest this year but the culture within the ranger team has produced team success for many years and continuing this high standard is a credit to everyone.”

City of Nedlands CEO Greg Trevaskis said the ranger team had efficient processes in place and a good rapport with the community. “One day we caught stray dogs on the road, and the public were so upset that they called us. When we caught them, they told us to lock them up. The public are so supportive, and I think that’s what makes the team so successful.”
